Tom Garcia, County Assessor and Christie Humphrey, Deputy Assessor, and staff presented the 2014 – 2016 Countywide Reappraisal Plan. They updated the Commission on the current reappraisal project and the need for additional time and budget for completion. Deputy Assessor Humphrey explained technical, system and staffing problems have caused delays. They are confident their new plan will allow enough time to accurately input all necessary data. Commissioner Walters questioned whether new taxes will be implemented at the end of this project or as soon as they are reappraised. Assessor Garcia stated that taxes will be updated as soon as they are reappraised rather than waiting for completion of this project. Commissioner Walters would like the public to be notified of this on the County website. Commissioner Lucero agreed that the public should be aware of this new plan. Chair Madalena asked why they started reappraisals in the rural areas rather than beginning in Rio Rancho. Assessor Garcia stated that Rio Rancho has the most updated information and wanted to focus on areas that were long overdue for reappraisal. Chair Madalena questioned the high employee turnover rate and asked why current employees were not utilized in this project. Assessor Garcia stated previously their permanent staff was tied up with tax protests. They have significantly reduced the number of protests which will allow their permanent staff to take over when this project ends in two years. Maria Gonzales a Rio Rancho resident voiced her concerns with the reappraisal project and the fact that it is not complete.
