## **B. SANDOVAL COUNTY BACKGROUND**

Sandoval County is a Class A county located in central New Mexico. It covers over 3,700 square miles of both urban and rural areas with a population of approximately 148,800 people according to the 2020 census. Sandoval County has a commission/manager form of government. The Board of County Commissioners consist of five members elected by voters within their respective districts. The County Manager is appointed by the Commission to carry out policy and serve as chief administrative officer.

Hazardous mitigation planning reduces loss of life and property by minimizing the impact of disasters. It begins with state, tribal, and local governments identifying these risks and vulnerabilities that are common in their area. After identifying these risks, they develop long-term strategies for protecting people and property from similar events. Mitigation plans are key to breaking the cycle of damage and reconstruction.

## **C. SCOPE OF PROCUREMENT**
