Re: Registration Application - Sandoval County Transfer
Stations Canon, Cuba, Pena Blanca, County Landfill

Dear Mr. Foster:

The Solid Waste Bureau has completed a review of your registration application submitted on January 11, 1995 and has found it to be complete.

A Certificate of Registration will be issued to Sandoval County in the near future.

Thank you for your cooperation, if you have any questions please call me at (505) 827- 2924.

Sincerely

Charles Hules, Manager

RE: Registration of Solid Waste Transfer Stations

Dear Mr. Hules,

The County of Sandoval is the recipient of a Community Development Block Grant with the intent to construct, equip and operate four (4) solid waste transfer stations located within the County. The scope of the project defines the removal and transport of solid waste to the Southern Sandoval County Landfill.

At this time, we respectfully request that each transfer station be given consideration for registration the the NM Environmental Department. For your review, I have enclosed Registration Forms for each site and provided the plans/specifications as prepared and designed by Molzen-Corbin & Assoc.

It is my hope, that the information is satisfactory and should you have additional inquiries please do not hesitate to phone our office at 867-7500. I'll await your reply.

Sincerely,

Donna M. Wylie

RE: Registration of Solid Waste Transfer Stations

Dear Mr. Romero,

This letter is in reference and follow-up to Sandoval County's recent request to register four (4) solid waste transfer stations. The registration forms were submitted on 1-10-95 and after careful review, additional support data was requested from your Department. Enclosed for your evaluation, Sandoval County has attempted to address each question pertinent to the facility registration package - CHECK LIST.

We apologize for the negligence and hope that the information provided will assist with the registration process for construction and operation of the four transfer stations. Should you have additional questions, please do not hesitate to phone our office at 867-7500.

Sincerely,

A handwritten signature in cursive script that reads "Donna M. Wylie".

Sandoval County Solid Waste Transfer Stations
1-11-95

FACILITY REGISTRATION PACKAGE - "CHECK LIST"

I. 1. An area map and site plan of the proposed facility was provided with the registration form. The document was prepared by Molzen-Corbin and Associates, Sandoval County contract engineers and details the contract agreement with Laguna Construction and site specifications.

2. Rural/unincorporated zoning applicable to Sandoval County. Transfer site for Cuba is within the existing Sandoval County Road Yard.

II. An operating plan:

1. Daily dumping of solid waste at the Sandoval County Landfill, tarping of containers and continued spraying of containers.

2. Anticipated start-up date is anticipated and scheduled for:

Cuba Transfer Station	-	1-17-95
Schedule of Operation	-	2 days per wk. 20 hrs., 8-5

Canon Transfer Station	-	same operation schedule & start-up date
------------------------	---	---

Pena Blanca Transfer Station	2-6-95 2 days per wk 20 hrs. operation
------------------------------	--

Landfill Convenience Station	3-6-95 3 days per wk 30 hrs. operation
------------------------------	--

3. Alternative waste handling would be contracted with private sector: MCT Inc., Bedford, Southwest Services, and Seay Bros., Inc.

4. Procedures will be taken by Sandoval County to ensure, that as owner/operator all resources within County disposal will be utilized. Additional resources would include the contracting with private enterprise.

5. Origin would include geographic area within the County of Sandoval and those in proximity to each transfer site. Sandoval County has purchased seven (7) 40 cubic yard, roll-off, bath tube style containers with tractor. Each station will be accepting materials from the solid waste

stream not to exceed 40 cubic yards per container. Start-up program for recyclables will be in collaboration with the stations. Materials accepted will include; tin, newsprint, plastics, cardboard and aluminum.

6. Approximately, 6 cubic yards of recyclable materials are predicted for the initial start-up program.

7. It has been estimated that approximately 80 cubic yards of solid waste will be transported from each station per week with the exception of the site located at the Sandoval County Landfill which is estimated at approximately 160 cubic yards of solid waste within a permitted landfill. Expected life of each facility will be 20 years.

8. Number, type and size of equipment will include:
Cuba 2-40 yd. containers
Canon 2-40 yd. containers
Pena Blanca 2-40 yd containers
Sandoval County Landfill 4-40 yd containers
Recycling Trailer 1-12 yd
